

Cha Cha Matcha

Multiple Locations

EP Engineering provides full MEP design services for a recent roll out of the popular matcha retailer, Cha Cha Matcha. The brand promotes a healthy caffeine alternative, sold at colorful and inviting outlets from coast to coast. Working alongside the architect and interior design team, EP Engineering helped facilitate efficient designs that capture the expectations of high-end retail, without astronomical construction costs.

LOCATION

Multiple locations
in CA and NY

BUILDING SIZE

1,500 SF

ACHIEVEMENTS

- Coordinating MEP systems with architectural elements, such as slat ceilings and floating menu boards, to create a seamlessly functional visual experience.
- Meeting with construction team to align the installation with the client's expectations.
- Adhering to the project's tight schedule to ensure opening could happen as planned.
