

Wandering Barman

Tasting Room

Wandering Barman is a Brooklyn-based cocktail company, serving hand-crafted cocktails you can enjoy in any setting. EP Engineering provided full MEP design services for their Tasting Room in Brooklyn, NY. The Tasting Room is complete with an event space, bar, and production area for the brand's bottled cocktails. Visit their Tasting Room in Brooklyn for drinks and vibes! EP Engineering carefully coordinated with the architect during design, and general contractor during construction, to create a budget-friendly build-out that met Ownership's expectations.

LOCATION

315 Meserole St
Brooklyn, NY

BUILDING SIZE

4,600 SF

ACHIEVEMENTS

- Created a comfortable environment via space conditioning that was carefully design to be simplistic in construction.
- EP Engineering also designed the base building, so we were able to interface seamlessly with existing building systems.
- Coordinated MEP requirements for custom production facility.
